

# Clear PVC

## SCH 40 and CL 100

Made from PVC 2110-2116 meeting ASTM D 1784 and meets  
ASTM D 1785, products standard 21-70

Part Number	Size	O.D.	Average I.D.	Min. Wal	Weight Per 100 ft.
CLR005401	1/2" Sch 40	.840"	.622"	.109"	15.70
CLR007401	3/4" Sch 40	1.050"	.824"	.113"	21.00
CLR010401	1" Sch 40	1.315"	1.049"	.133"	30.10
CLR012401	1 1/4" Sch 40	1.660"	1.380"	.140"	42.10
CLR015401	1 1/2" Sch 40	1.900"	1.610"	.145"	50.50
CLR020401	2" Sch 40	2.375"	2.067"	.154"	67.80
CLR030401	3" Sch 40	3.500"	3.068"	.216"	140.80
CLR040401	4" Sch 40	4.500"	4.026"	.237"	200.10
CLR060101	6" CL 100	6.625"	6.301"	.162"	215.80

Standard 10 foot lengths.

Belling are available with minimum runs.

The material used to manufacture the Sch 40 and CL 100 Clear PVC is a food grade extrusion molding compound with indoor UV resistance properties, high gloss, and clarity. This material is formulated with an FDA approved tin stabilizer to meet the 21CFR 178.2650 food additive regulation, and is produced under stringent manufacturing conditions limiting RVCM to minimum levels.

Not suitable for contact with liquid milk, malt beverages, or non alcoholic carbonated beverages.
